

## Features:

- Lightweight Lithium Battery
- Adjustable handle, up to 5.5 meters
- Works up to 3 hours on single charge
- Soft bristled brush heads
- 360 degree brush rotation

## Applications:

Cleaning of solar panels to reduce dust, debris, and other contaminants such as leaves and bugs, which can reduce system ability to convert light into electricity..

## SPECIFICATIONS

Length of Rod	5.5 m
Number of Rod Sections	4
Wire Length	6.4m
Max Rod Diameter	40mm
Length of water pipe	30m
Brush head width / cleaning diameter	38cm/750mm
Thickness of telescopic rod	1.5mm
Material of telescopic rod	Titanium aluminum alloy
Motor Voltage	DC 16.8V
Motor Speed	320 times per minute
Motor Power	200w
Charger Practical Voltage	AC110~240V. DC16.8V
Lithium Ion Battery	14.8V 10AH
Battery Charger	High Power Fast Charge 16.8V 10AH
Battery Life	Fully charged in 1 hour, work continuously for 3 hours
Packing Details	
Pole Packing	175cm*10cm*10cm
Normal 220V	60cm*45cm*25cm
Double Battery Power Supply	60cm*45cm*25cm
